DEFEATING REDO VOODOO

OUR STORY SO FAR...

Just when teams thought they were aligned after the defeat of The Bottleneck, chaos struck again. Conflicting spreadsheets, endless revision cycles, and departmental misfires have summoned a more sinister threat: Redo Voodoo, the spectral force feeding on rework, indecision, and scope creep.

As estimates fall apart and trust erodes, Captain Cost and SEERai return—this time to streamline and synchronize.

By aligning procurement, risk, and finance models in real-time, SEERai cuts through the noise and locks in confident, data-backed strategies. Redo Voodoo may thrive on confusion, but alignment is Captain Cost's specialty...

WHEN COST, RISK, AND PROCUREMENT DON'T SPEAK THE SAME LANGUAGE, PROJECTS COLLAPSE UNDER THE WEIGHT OF REWORK...

WE'RE RECALCULATING THIS FOR THE THIRD TIME! THESE NUMBERS DON'T MATCH FINANCE'S DATA!

WE SIGNED OFF ON A BUDGET LAST WEEK--WHY IS PROCUREMENT SAYING WE'RE OVER BY 15%?

ENDLESS CHANGES, UNCERTAINTY, AND SCOPE CREEP WITHOUT A WAY TO ADJUST IN REAL-TIME GIVES RISE TO...
REDO YOOOOO!

YES... YES... START OVER! BREAK IT DOWN AGAIN! CHANGE IT ALL! EVERY REVISION FEEDS MY POWER!

WE'RE BURNING TIME AND TRUST. WE AREN'T EVEN LEVERAGING OUR HISTORICAL DATA! IF THESE TEAMS CAN'T WORK FROM THE SAME SOURCE, WE'LL LOSE THE BID!

YOU DON'T NEED MORE REVISIONS. YOU NEED RESOLUTION. **SEEHAI** ALIGNS THE STRATEGY.

SO MANY MODELS!
REVISIONS ACROSS TEAMS,
ACROSS WEEKS-- ALL OF IT MINE!
THE MORE THEY REWORK,
THE MORE I THRIVE!

NO VERSION IS
CURRENT. EVERY
TEAM HAS DIFFERENT
DATA.

THEN, ALLOW
US TO HELP
WITH THAT.

SEERRA HELPS ELIMINATE THE CYCLE OF ENDLESS REVISIONS BY INGESTING HISTORICAL DATA AND PAST RFP RESPONSES TO FUEL FASTER, MORE RELIABLE PROPOSALS.

SEERRA DOESN'T GUESS. IT DELIVERS ACTIONABLE INSIGHTS AND CONFIDENCE BASED ON INTERNAL DATA AND INFORMATION... SECURELY. WE'RE LOCKING THIS IN.

ANALYZING COST AND RISK DATA... HARMONIZING ESTIMATION MODELS... SYNCHRONIZING PROJECT ASSUMPTIONS. REBUILDING ALIGNMENT FROM HISTORICAL AND REAL-TIME MARKET DATA

WHAT-- NO! I NEED THAT CONFUSION!
